

Dear Parents,

In an effort to improve math fluency in math computation, we are requiring all students to work on math facts this summer. Your child will bring home his/her green math fluency workbook on **Monday, June 2nd**. Your child has completed pages in this booklet throughout the year, and there are many pages left that can still be completed over the summer.

Your child should complete a math **multiplication** practice sheet each week. You will find several multiplication practice sheets in the back of the book. Please just tear one page out each week and have your child complete the page. This math fluency practice is **mandatory** and the completed practice pages should be returned to your child's fourth grade teacher during the first week of the 2008-2009 school year. Please just keep all the pages together and stapled. Then at the start of the school year, your child can turn in their stapled packet of multiplication pages.

Before your child starts a page, please set a timer for 5 minutes and have your child complete as much of the page as possible in that 5 minute period. The goal is for the children to complete 100 problems in 5 minutes. When the 5 minutes is up, please score your child's work. After scoring, have your child finish any problems he/she didn't did not complete in the 5 minute period. This practice will help your child build his/her skills. You can also make additional copies of these pages to help your child increase his/her fluency. Please remember, it is practice, not merely doing these sheets, which will help make these math facts automatic for your child.

Below we have listed some websites you may want to go to for fun games and activities that can help reinforce these skills.

As always, thank you for your support!

The Third Grade Teachers

www.aplusmath.com

www.coolmath-games.com

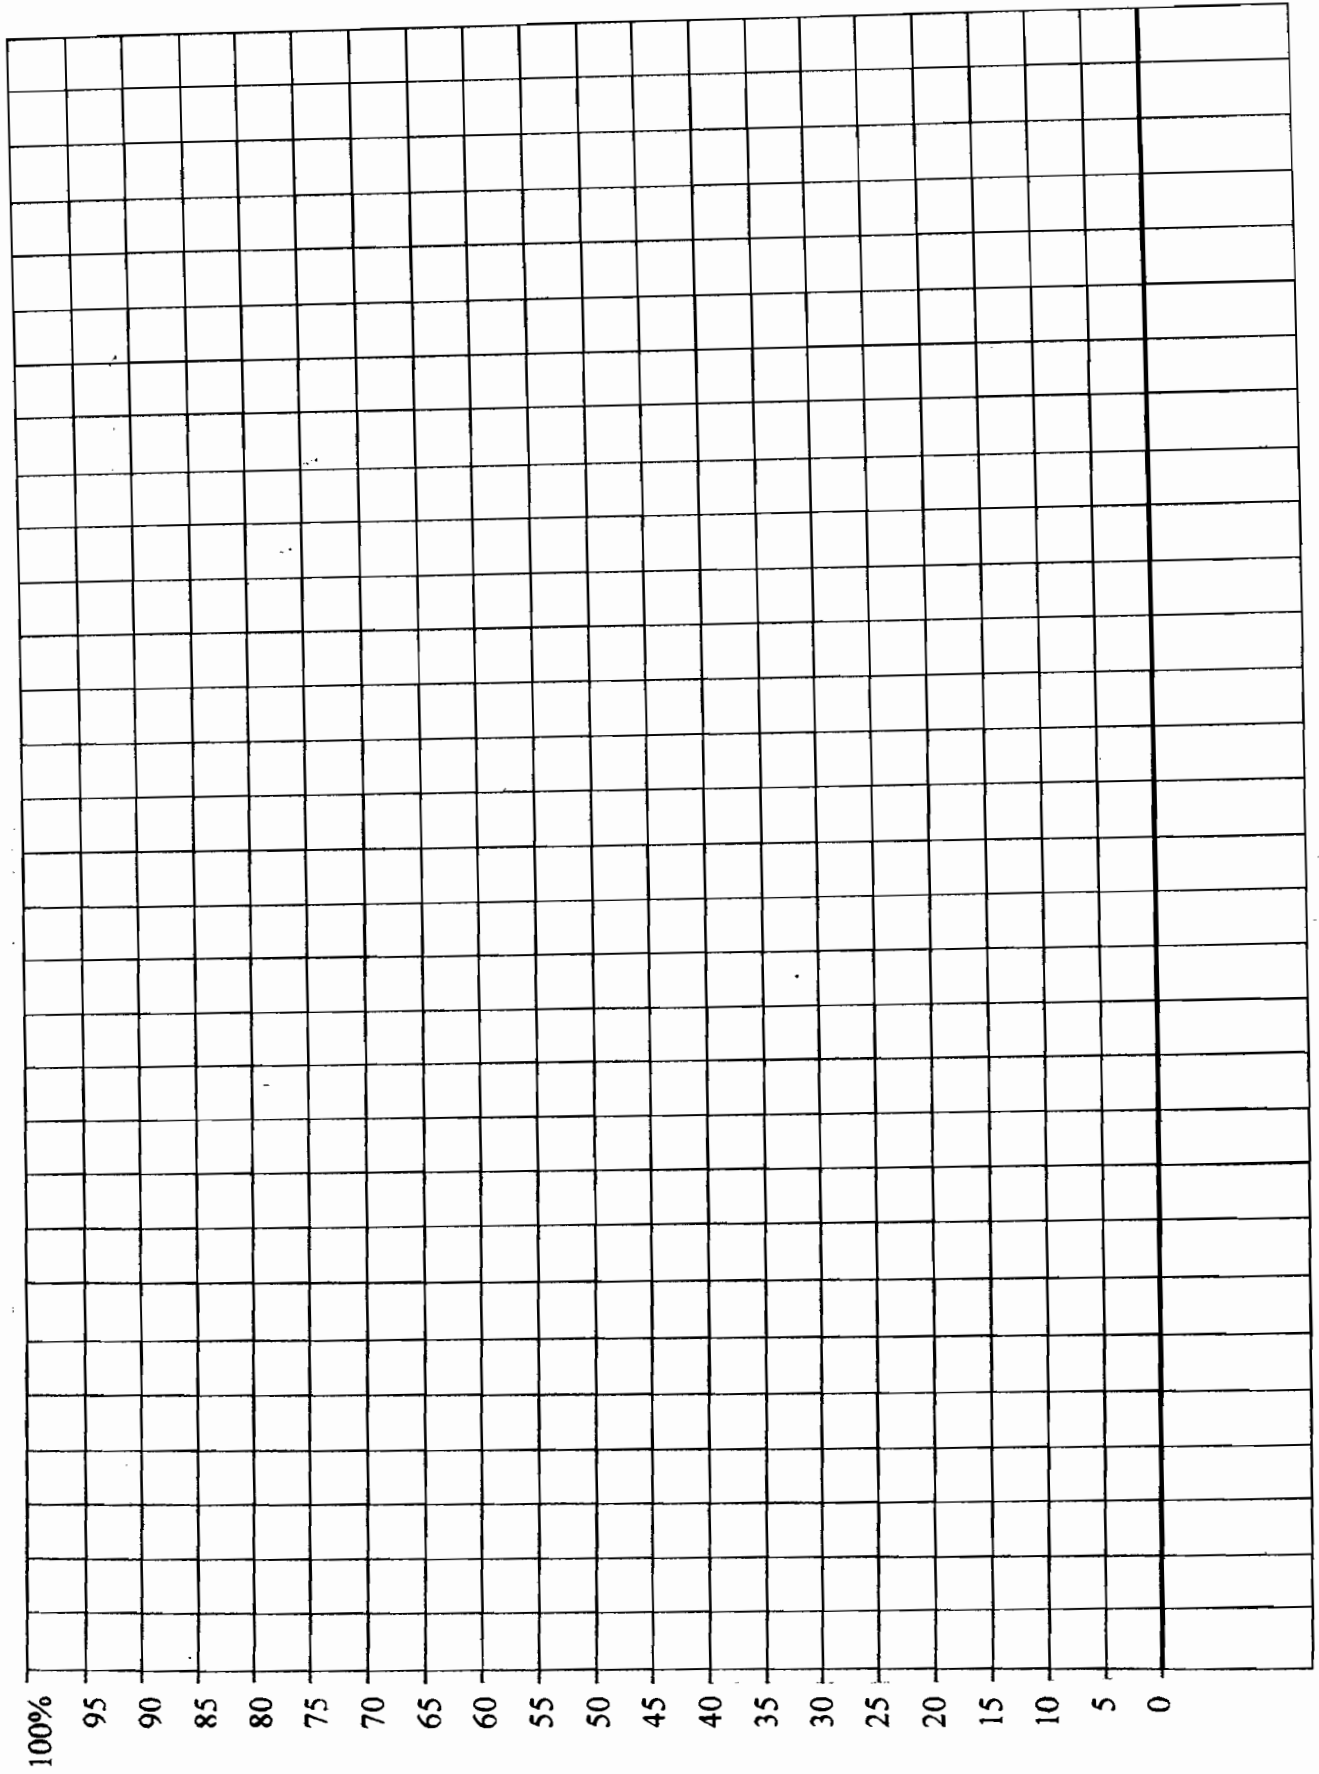

www.funbrain.com

www.themathworksheetsite.com

www.math-drills.com

As you will notice, there will be other pages in the green practice booklets that have mixed addition and subtraction problems. While it is not necessary for you child to complete these pages, they do provide extra math practice.
